## INFORMATION ABOUT YOUR BATH:

Royce Morgan baths are made using two pieces of 5mm sanitary grade acrylic sheets.

Both the inner and outer acrylic skins are then reinforced using resin bonded glass fibre strands.

When the resin is cured it sets solid to give both acrylic skins an improved strength and rigidity.

They are both then coated with thermal sheets so that the water in the bath has a longer heat retention.

The inner and outer skins are then bonded together using a polyester based cast giving it a solid base.

A modern white freestanding bathtub is the central focus, set against a dark teal wall and a light grey tiled floor. To the left, a dark textured curtain hangs next to a marble-topped shelf. To the right, a dark-framed mirror and a glass vase with a green branch are visible. The overall aesthetic is clean and contemporary.
